

Speech Provider:

Thank you for caring for our Rady Children's Health members. We recognize that there may be a waitlist for patients who need speech therapy services. Therefore, we are hoping that when you receive a request for one of our members who is age 3 years or older, you might inform them that there are resources for speech within the Local School Systems and have the families reach out to the schools as well. Most public-school districts will provide therapy services at no cost to the family when the member has reached the age of 3 years, even if the child is not yet enrolled in school.

Below is a contact list for school districts within the San Diego and Riverside Regions. The school district information below can be provided to families who express a desire to access services more quickly than what you may be able to offer. Members can also be referred back to their primary care office for help with receiving services.

San Diego County Charter Schools

If the child is attending a charter school, the family needs to refer to their school's education department.
